1/2" Impact Wrench (Twin Hammer) 1560Nm / 1150FT/LB

A05A007

Features:

- Ideal for very restricted areas including, transmission, engine and interior work
- Twin hammer delivers Max working torque 1560Nm.
- Light weight due to composite housing, below 4.5 lbs, ergonomic soft grip design with more durable and more comfortable to use.

Specifications:

- Shell Material: Composites
- Twin hammer
- size:L 179× W 61× H186 mm
- Cylinder:43mm
- Free Speed 8,000rpm
- Handle Exhaust
- Max torque:1560Nm
- Air pressure: 6-8kg/cm2
- Air inlet: 1/4"NPT

1/2" Impact Wrench (Twin Hammer) 1650Nm / 1217FT/LB

A05A009

Features:

- Power and Performance: Twin hammer delivers Max working torque 1650Nm.
- With ergonomic handle for the user's ultimate comfort.
- Light weight due to composite housing, below 5 lbs, ergonomic soft grip design with more durable and more comfortable to use.

Specifications:

- Shell Material: Composites
- Twin hammer
- size:L 188× W 61× H186mm
- Cylinder:52mm
- Free Speed 7,000rpm
- Handle Exhaust
- Max torque:1650Nm
- Air pressure: 6-8kg/cm2
- Air inlet: 1/4"NPT

1/2" Mini Impact Wrench (Twin Hammer) 745Nm / 550FT/LB

A05A091

Features:

- Ideal for very restricted areas including, transmission, engine and interior work
- Twin hammer delivers Max working Torque 745Nm.
- Composite housing is lightweight and ergonomic grip designed. More comfortable and less vibration.

Specifications:

- Shell Material: Composites
- Twin hammer
- size:L 146× W 50× H181mm
- Cylinder:32mm
- Free Speed 10,000rpm
- Handle Exhaust
- Max torque:745Nm
- Air pressure: 6-8kg/cm2
- Air inlet: 1/4"NPT

1/2" Mini Impact Wrench(Jumbo Hammer) 745Nm / 550FT/LB

A05A093

Features:

- Ideal for very restricted areas including, transmission, engine and interior work
- Twin hammer delivers Max working Torque 745Nm.
- Composite housing is lightweight and ergonomic grip designed. More comfortable and less vibration.

Specifications:

- Shell Material: Composites
- Jumbo hammer
- size:L 132× W 50× H181mm
- Cylinder:32mm
- Free Speed 10,000rpm
- Handle Exhaust
- Max torque:745Nm
- Air pressure: 6-8kg/cm2
- Air inlet: 1/4"NPT

1/2" Twin hammer Impact Wrench Super Torque 1150Nm / 850FT/LB

A05A161

Features:

- Lightweight Composite Housing: Reduces fatigue and promotes comfortable prolonged usage.
- Optimized Power Delivery: Minimizes vibration while maximizing power for efficient operation.
- Three-Speed Power Switch: Enables versatile forward operation at different speeds; offers full power in reverse.
- Ergonomic Design: Sleek design for comfortable handling, reducing strain during extended use.
- Exhaust Air Management: Safely directs exhaust air away from the operator for improved comfort and safety.
- Twin Hammer Mechanism: Provides robust performance and reliability across various applications.
- Handle Exhaust: Ensures exhaust air is directed away from the user's hands for added comfort.

Specifications:

- Weight: 2.1 kilograms
- Working Pressure: 90 PSI (0.63 MPa)
- Square Drive: 1/2 inch
- Free Speed: 8000 RPM
- Max Tightening Torque: 1150 N.m (850 Ft-lbs)
- Max Loosening Torque: 1650 N.m (1217 Ft-lbs)
- Air Inlet: 1/4 inch NTP
- Air Pressure Range: 6-8 kg/cm2

1/2" Air Impact Wrench-jumbo With Level Display / 900nm / 665ft-lbs Ft-lb

A05A651

Features:

- Central Exhaust Control-360-degree central swivel exhaust directs air away from the user, making it easier for you to use.
 - 3 Levels Adjustable-Rotating F/R ring at the end of the handle for easier and quicker change of direction and speed settings.Window position.
 - 665 Ft-lbs/900 N.M of Ultimate Loosen Torque in reverse position for Vehicle repair industry,heavy trucks,tire lane,body shops,Fleet maintenance,general industrial use,MRO,Rail,heavy machinery,oil and gas, shipbuilding and constructions etc.
- ### Specifications:
- Square Drive:1/2".
 - Max Torque:900Nm/665Ft-lbs.
 - Avg.air consumption : 5.0cfm.
 - Free Speed: 7500rpm.
 - Clutch Type: Jumbo.
 - Exhaust : 360°.Length:248mm..Air Pressure : 90psi.
 - Air Inlet : 1/4".

1/2" Air Impact Wrench-Jumbo With Level Display / 900Nm / 665FT/LB

A05A267

Features:

- Central Exhaust Control-360-degree central swivel exhaust directs air away from the user, making it easier for you to use.
- 3 Levels Adjustable-Rotating F/R ring at the end of the handle for easier and quicker change of direction and speed settings.

Specifications:

- Square Drive:1/2"
- Max Torque: 407Nm(for 1/2")
- Avg.air consumption : 4.0cfm/35scfm
- Free Speed: 6500rpm
- Clutch Type: Jumbo
- Exhaust : 360°
- Length:248mm
- Weight : 1.42kg
- Air Pressure : 90psi
- Air Inlet : 1/4"
- Noise : 100dBA

3/4" Impact Wrench (Twin Hammer) 1800Nm / 1328FT/LB

A05B019

Features:

- Twin hammer delivers Max working Torque 1800Nm.
- Designed for professional projects and general-purpose applications
- Composite housing is lightweight and ergonomic grip designed. More comfortable and less vibration

Specifications:

- Shell Material: Composites
- Twin hammer
- size:L 201× W 61× H186mm
- Cylinder:52mm
- Free Speed 7,000rpm
- Handle Exhaust
- Max torque:1800Nm
- Air pressure: 6-8kg/cm2
- Air inlet: 1/4"NPT

3/8" Mini Impact Wrench (Twin Hammer) 745Nm / 550FT/LB

A05E241

Features:

- Ideal for very restricted areas including, transmission, engine and interior work
- Twin hammer delivers Max working Torque 745Nm.
- Composite housing is lightweight and ergonomic grip designed. More comfortable and less vibration.

Specifications:

- Shell Material: Composites
- Twin hammer
- size:L 145× W 50× H181mm
- Cylinder:32mm
- Free Speed 10,000rpm
- Handle Exhaust
- Max torque:745Nm
- Air pressure: 6-8kg/cm2
- Air inlet: 1/4"NPT

3/4" Impact Wrench (Twin Hammer) 2000Nm / 1475FT/LB

A05B021

Features:

- Pneumatic impact wrench have twin hammers structure, maximum working torque is 2000Nm,stronger motivation.
- 3/4-inch air impact wrench adopt to high quality material made durable anvil with special heat treatment to extend and ensure maximum life,more durable.
- 3/4 air impact gun adopt to Composite housing, lightweight and ergonomic grip designed,more comfortable and less vibration.

Specifications:

- Shell Material: Composites
- Twin hammer
- size:L 228× W 86× H217mm
- Cylinder:55mm
- Free Speed 5,500rpm
- Handle Exhaust
- Max torque:2000Nm
- Air pressure: 6-8kg/cm2
- Air inlet: 1/4"NPT

1/2" 1560Nm / 1150FT/LB Impact Wrench (Twin Hammer) With Wheel Nut Socket

A05X511

Specifications:

- Shell Material: Composites
- Twin hammer
- Size:L 179× W 61× H186 mm
- Cylinder:43mm
- Free Speed 8,000rpm
- Handle Exhaust
- Max torque:1560Nm / 1150FT/LB
- Air pressure: 6-8kg/cm2
- Air inlet: 1/4"NPT
- CR-MO Wheel nut socket: 17mm, 19mm, 21mm

3/4" 2000Nm / 1475FT/LB Impact Wrench (Twin Hammer) With Impact Sockets

A05X541

Specifications:

- Shell Material: Composites
- Twin hammer
- Size:L 228× W 86× H217mm
- Cylinder:55mm
- Free Speed 5,500rpm
- Handle Exhaust
- Max torque:2000Nm / 1475FT/LB
- Air pressure: 6-8kg/cm2
- Air inlet: 1/4"NPT
- CR-MO Impact socket: 27mm, 30mm, 32mm

Air Hammer Kit/Diesel Injector
Extractor Adapters Set

B01A097

**Features:**

.Different shaped chisels:Ray has 4 shaped chisels,including flat chisels, chisels with indentations,who-shaped punches, tailpipe cutters, perfect for replacing front-end parts, removing rusted control arms,fast-cutting bolts,drive pins, push out the wheel studs.
.Remove the ball joint:attached with 74 mm,63 mm, 38 mm and other different sizes of the ball joint remove the adapter,you can use the hammer and adapter easily remove he balljoint.
.Easy to disassemble diesel injectors: the kit includesdiesel injector extractors,7 different diesel injectorsdaptors, which can remove most diesel injectors,are compatible with Siemens (2) , and are electricallycompatible, compatible with high voltage M12,compatible with Delphi, compatible with M16,compatible with Bosch dualconnectors.
.Various bits and adapters are available: includingpneumatic smooth bits and pneumatic round bits.and 1/2 inchsquare drive pneumatic hammer bolt crusher,1/2 Inch rounddrive pneumatic bolt crusher, they can be used with impactsleeve, easy to remove stubborn fastener bolt nut,removebrake drain.
.You can quickly replace different punches, oruse the adapter to replace the socket you need.
.Easy to disassemble diesel injectors.

Specifications:

.Widely used: the kit includes air hammer,punch, chisels and adapters of various shapes,diesel injector adapters, Air Hammer extractors, etc., widely used in automobiles or industry.
.Piston stroke for Air Hammer :specification: 89 mm.
.Stroke Speed: 2100 BPM.NET weight: 1.80 kg,length: 225 mm,
.sound pressure: 96DbA. Vibration: 11M/s 2.
.Air Consumption: 1.00/0.20 CFM/m3/min.

Steering Readout Scale, 270-350mm

B01J005

**Features:**

.This construction style is far superior in strength as well as the maintenance of exact torque length
.The dovetail design provides an exceptionally strong connection and allows for complete head interchange-ability across the full spectrum of torque ranges

Specifications:

.Range:250-350MM
.Material: Aluminum +ABS

Valve Keeper Remover And Staller Kit

B01K012

**Features:**

.Quickly Removes and Installs Valve Keepers On Most Overhead Valve Engines With
.Makes valve component disassembly and reassembly fast and easy. Push or tap tool with a hammer to remove valve keepers
.Magnet in tool body captures keepers for quick removal and valve disassembly.
.To install keepers, load in retainer on valve stem, then push or tap handle to install. Can be used on the car or bench

Specifications:

Valve Stems From 4.5 to 7.5mm and 5/16" to 3/8".

AN Hose Fitting Adjustable Wrench

B01P015

**Features:**

.Adjustable range:This wrench size can be adjusted to 3AN, 4AN, 6AN, 8AN, 10AN, 12AN, 14AN and 16AN.
.Grip comfortably - curve design anti-skid handle.
.Sand Blasting Technology - Improving the smoothness of the material surface.
.Advantage:Multisize in one /Contact of four opposite sides
.Recommended for aluminum fitting, easy to damage for other materials. Advice:wrap the wrench's jaws with electircal tape to better protect the fitting &wrench.

Specifications:

.Size:length: 7.2 inch/18.5 cm,width: 2.7 inch/7.1 cm, thickness:0.52 inch/1.35cm.
.Material: T-6061 Lightweight Aluminium Alloy

Multi-Purpose Syringe 500ML

B01P210

**Features:**

Highly reliable and easy to use, it is a perfect tool for your car.
EPDM plastic allows wearing-resistance.
500ML capacity enables one-time finish work.
Small size and light weight allows time and energy saving work.
For removing or replacing oil from gearboxes, engines etc, also can be used with brake fluid / antifreeze etc.

Specifications:

.For removing oil from gearboxes and engines
.For use with brake fluid/antifreeze 500ML
.which is made from EPDM plastic/transparent Suction and supply of gear oils etc
.Quick disconnect tube
.Tube length: 50CM

Diesel Engine Fuel Priming & Bleeding Kit

B01P455

**Features:**

.For bleeding low pressure side on Diesel fuel systems
.Is required when renewing diesel filters and pump or other components of the diesel injection system
.Prevents defects of high pressure pumps (CDI) which frequently occur during renewing filters without manual filling

Specifications:

.Includes 6 different adapter hoses and hand pump with valve
.Suitable for:Ford, PSA, Opel, Fiat, Rover, Land Rover, Renault, Mercedes-Benz

3pc Flexible Hose Clamp Set

B01P509

**Features:**

.Lightweight easy for quick and simple handle
.Quality set of flexible hose clamp pliers manufactured from high visability, light weight non-conductive material
.Flexible hose clamp, in 3 sizes
.Ideal for single handed use with locking clamp for accuratepinch/clamping
.Ideal to avoid damaging hose lines on brakes, heaters,fuel, radiators

Specifications:

.Approximate Sizes: 150mm(6inch), 180mm(7inch), 250mm(10inch)

Lever Mates For Clutch And Transmission
Work, Ball Joints

B01D040

**Features:**

.This set of two heavy duty forked pry handles are ideal for clutch and transmission work including separating ball joint connections on shifter cables & shift linkages.
.Also suitable for wide variety of common removal tasks such as axle components, ball joint connection points, exhaust hangers, silent blocks, bushes, and many panel types and stuck components.

Specifications:

.Made from 10mm thick anodised steel for superior durability
.Large Dimensions:Internal Length: 110mm.Internal Width: 25 mm.Prong Width: 28mm.Total Length: 360mm.
.Small Dimensions:Internal Length: 65mm.Internal Width: 15 mm.Prong Width: 12mm.Total Length: 320mm.
.Material:45# steel.
.Heat treatment

IOPCS Pneumatic Fan Clutch Wrench Kit

B01D935

**Features:**

.Easy to Use: Just slip the tool into the air hammer select the correct wrench size for the fan nut and a couple of pops of the air hammer and the fan clutch is loose. No need for any other special pinning tools.
.High Quality: made of sturdy steel(Q235),ensures high strength and durability, great resistance to corrosion andrust.
.Fitment: Compatible with Ford, GM, Chrysler &Jeep, fit for 4.3L, 5.0L, or 5.7L GM pick up (van, mini-van, or SUV).

Specifications:

.7 Driving Wrenches Sizes: 7/8", 32mm, 36mm, 40mm thin and 47mm size to fit Ford 6.0L and 6.4L Powerstroke diesel pickup. 1-7/8" and 2" are also included in the set.
.1PC 190mm air hammer
.1PC Spring.
.1PC shock bar surface electrophoresis.
.7 PC spanner surface electrophoresis.

Harmonic Balancer Puller Kit

B01G019

**Features:**

.FOR PRESSED-ON HARMONIC BALANCERS: Harmonic balancer tool is designed for pressed-on harmonic balancers with a single center retainer bolt; Uses 3 jaw puller arms with significant bite to grip and remove spoke-style pressed-on harmonic balancers
.EASY TO USE: Unique spring-loaded jaws hold the legs in place when positioning the harmonic balancer removal tool, making removing and reinstalling the harmonic balancer a relatively simple and inexpensive process

Specifications:

.Harmonic Balancer Puller Kit
.Includes Puller Body, 3-Jaw Puller, (3) Jaw Retaining Pins , (3) Wave Washers, (4) Pressure Screw Adapter Rods (4", 5"-1 3/32", 6"-1/2", and 7"-13/32").
.Crankshaft harmonic balancer puller designed for use with Model GM 2000 Generation II Cadillac (1988 - Newer), Chevrolet Trucks (2003 - Newer), Chrysler (1990), Ford (199 5 - Newer), and Mitsubishi Eclipse (1995).

Pneumatic Valve Lapper Kit

B01K223

**Features:**

.Special for engine repairing Design for operating in tough environments
.Adjustable speed regulator for precise control during operation.

Specifications:

.Maximum diameter: 45 mm
.Rpm: 3000 rpm
.Hose inner diameter 10 mm
.Air consumption: 100 l/m
.Complete with rubber caps of 20mm, 30mm, 35mm and 45mm.

Extraction and Filling Pumpw / Extra Hose

B01P207

**Features:**

.Offers an Easy Choice for Removing and Filling Brake Fluid, Anti-Freeze, Gear Oil, also Power Steering Fluid and More
.Ideal for Extracting or Changing Engine Oils or Lubricants in ATV's, Boats, Farm Equipment, Industrial Gear Boxes, Motor Vehicles, Motor Bikes, RV's, etc.
.Excellent for use with Oil, Coolant and Hydraulic Systems
Durable, Oil and Chemical-Resistant Polypropylene Construction
.Features Heavy-Duty Construction Allows for Strength and Durability
.Features Double Seals for Brake and Anti-Freeze, Assembled on Plunger

Specifications:

.Capacity:200cc / 0.2 Qt. Clear body.
.Includes 2 pcs 7.5" / 19cm Clear Hose
.Includes extra set of seals for Oils.
.Hose diameter: 8.3mm.

Fuel Retriever - 1.5L

B01P211

.1.5 litre Fuel and Fluid Extractor
.16-inch hose enables operator
.Applications include evacuating engine oil, coolants, transaxle grease, and power steering, transmission, and brake fluid.

3pc Hose Pinch-off Pliers

B01P519

**Features:**

.Rubber Hose Pinching: Designed for pinching off rubber hoses such as brake, fuel, and coolant hoses.
.Approximate 30° Angle: Features an approximate 30° angled design for ergonomic handling and precise control.

Specifications:

.Tube Compatibility: Suitable for tubes with diameters of φ10, φ15, and φ24mm.
.Material: Constructed from fiberglass composite material.

3 in 1 Brake & Clutch Bleeder Kit

B03J865

Features:

The 3 in 1 Brake & Clutch Bleeder Kit, equipped with a 2000mAh Li-ion battery that can be powered by the vehicle's own 21V battery, DC 12V, or 100-240V power source. With a power output of 32-48W, the bleed pressure is closely controlled up to 2.5bar. The unit is fitted with an auto-shut-off device to prevent the system from running dry and comes with a variety of European, Japanese, and US vehicle adapters, a bleed bottle, and fluid extractor. This set contains 16 brake master cylinder adapters and 1 x quick coupling, providing extensive adaptability. Whether for vehicle maintenance or everyday use, this product offers a convenient and efficient solution for bleeding brakes and clutches.

Specifications:

- .1* 2000mAh Li-ion Battery
- .Powered by the vehicle's own 21V battery or DC 12V or 100-240V.
- .Power:32-48W
- .Bleed pressure is closely controlled up to 2.5bar
- .Unit fitted with auto-shut-off device to prevent the system running dry and is supplied with a variety of European, Japanese and US vehicle adaptors, bleed bottle and fluid extractor.
- .This set contains 16 brake master cylinder adapters and 1 x quick coupling.

Brake Bleeder Kit

B03K011

Features:

- .Allows one person to bleed air from brake line.
- .Magnetic pad holds collection bottle to metal frame.
- .Includes adapters for multiple applications.

Specifications:

- .Mounting Type: Magnetic
- .For Use On: Calipers, Wheel Cylinders and Master Cylinders
- .Bleeder Bottle Make: Plastic
- .Number of Bleeder Adapters: 3

3pc Fluid Lock Set

B99A004

Features:

- .Versatile Application: Suitable for clamping and sealing metal flared pipes in various systems including braking systems, cooling system bypass, fuel pipes, AC pipes, etc.
- .Effective Sealing: Provides an effective seal to metal brake pipes, particularly useful when the braking system has been opened for maintenance or repair.
- .Durable Construction: Features three anodized aluminum bodies with plastic screws, ensuring durability and resistance to corrosion.

Specifications:

- .Size Range: Accommodates pipe sizes ranging from 4.2mm to 10mm.
- .Material: Anodized aluminum bodies with plastic screws.

Digital Tread Depth Gauge 0-1 Inches/
0-25.4mm

B03N009

Features:

- .Digital LCD display
- .Manual power on/off
- .Zero setting at any position
- .Metric/Inch system interchange
- .Brake shoe and pad wear
- .Mini size, handheld and portable
- .Suitable for tread depth measurement
- .Designed with electroplated iron probe

Specifications:

- .Range: 0-25.4 mm / 0 - 1 inch
- .Resolution:0.01mm / 0.0005 inch
- .Working temperature:0°C - 40°C

Valve Seat Cleaning Tools Kit

B03AD716

Features:

- .Professional Cleaning: Specifically designed for cleaning the sealing seat of tyre valves in alloy rims.
- .Versatile Tools: Includes two 2-stage grinding & polishing pins and two actuating tools of different lengths for milling and grinding based on the type of aluminium rim.
- .Compatibility: Suitable for all valves installed in alloy rims: rubber valves, screwed steel valves, and TPMS valves.

Specifications:

- .Material: Made of resin diamond sand for durability and effective cleaning.

2 or 3 Jaw Internal/External Ratcheting
Puller Set, 2 & 5Ton

B03AJ042

Features:

- .Internal and External Ratcheting pullers have a time-saving indexing jaw design
- .Legs index into position and stay in place, letting you easily support the puller and quickly connect each jaw one at a time to the pulley without help
- .Pullers can also be converted to two- and three-leg pullers
- .Jaws can be reversed from external to internal style in seconds

Specifications:

- .Color:Chrome
- .Item Dimensions LxWxH:11.5 x 7.9 x 2 inches
- .Item Weight:5.13Pound
- .Maximum spread of 3-1/4 inches on 2 ton puller
- .Material:40CR
- .Included Components:6 Legs 2 Yokes 2 Screws

17pc Professional Slide Hammer

B03AL135

17pc Professional Slide Hammer/Puller Set
Combination puller with 5-lb. malleable steel slide hammer.
Drop forged steel pullers and attachments fully hardened shaft
Converts into a 2 or 3 jaw internal/external gear puller for Galvanized
The forging process

Universal Hydraulic Bush Extractor

B03AP765

Features:

- .Hydraulic cylinder provides energy- and time-saving removing and installing works.

Specifications:

- .4 Spindles: M10 x P1.5, M12 x P1.75, M14 x P2.0 and M16 x P2.0.
- .Sleeve Sizes: 18 - 60mm (ID) and 26 - 68mm (OD) with 2mm increments.
- .Idea for removing and installing bushings and bearings.
- .Material:45# steel

3Pc Ball Joint Separator Set

B03AR041

Features:

- .It is good to use with powerful structure
- .Stand design to solve the space problem

Specifications:

- .Material 40CR
- .Ball joint separator 20 mm: Clamping range: max. 50 mm; jaw opening 20 mm
- .Chrome Plated

10pc Wheel Screw Lock Socket For Tesla

B03R285

Features:

- This tool enables you to permit servicing of customer vehicles, even customer has lost the key.
- Installing and removing locks.

Specifications:

- .The set of heads are used for removal and installation of Tesla vehicle model S, X.
- .Contents: #76, #77, #78, #79, #80, #81, #82, #83, #84, #85.
- .Material:50BV30+42CRMO

Double-disc type chuck puller code
gearbox bearing remover

B03AJ013

Features:

- .High-Quality Material: Crafted from 40CR steel, the Double-Disc Type Chuck Puller Code Gearbox Bearing Remover exhibits excellent toughness and wear resistance. This superior material ensures a longer tool lifespan and reliable performance over time.

- .Galvanized Surface Treatment: The tool is coated with a galvanized finish, providing corrosion resistance and safeguarding it against rust and other forms of degradation. This feature extends the life of the tool, ensuring optimal performance even in challenging environments.

- .Versatile Separators: The product comes with 30-50mm and 50-75mm separators, allowing for precise adjustment and customization based on specific tasks and requirements. This flexibility ensures compatibility with a wide range of bearing sizes and enables efficient removal in various applications.

- .Single Yoke with 178mm Thrust Bolt: The chuck puller is equipped with a single yoke complemented by a 178mm thrust bolt. This design ensures a secure grip and powerful force application during bearing removal, facilitating smooth and efficient operations.

Specifications:

- .Heat treatment,Hardness:35-42HRC
- .Material:40CR
- .Surface treatment:galvanize
- .With 30-50mm&50-75mm separators and single yoke with 178mm thrust bolt Suitable forengineering,marine, automotive& agricultural applications.
- .Compared to ordinary products,The addition of accessories can better lock the bearing,So it's easier to extract.

Universal axle lever with chain

B03AL085

Features:

- .Adjustable Clamping: Offers versatile clamping heights to accommodate various needs.
- .Durable Material: Constructed from robust Q235 steel for long-lasting reliability.
- .Convenient Handling: Designed for easy operation and maneuverability in various applications.

Specifications:

- .Material: Q235 steel.
- .Length: 960 mm.
- .Clamping Height: Adjustable from 65 mm to 265 mm.
- .Chain Length: Approximately 660 mm including hook.

Wheel Hub Removal Set

B03AL235

Features:

- .NO SHOP PRESS NEEDED: Remove the need for a shop press with our wheel hub bearing press tool; Save time removing even seized-up wheel hub and bearing assemblies; Our bearing press kit allows mechanics to install wheel bearings without a shop press
- .FOR PRO AND DIY MECHANICS: This wheel bearing puller/installer is one of the only tools for servicing front and rear wheel hubs and bearing on German cars; Install wheel hubs and bearings on most vehicles easily with our wheel bearing press kit
- .TIME-SAVING BEARING TOOL: No need to remove the strut assembly or knuckle to remove/install the hub and bearing; Our hub puller tool removes/installs hubs safely from the knuckle; Wheel bearing removal kit removes the need for an alignment after use
- .VARIETY OF ADAPTERS: Service your vehicles easily with our rear and front wheel bearing removal kit; This wheel bearing removal tool features all the adapters needed to service a number of foreign and domestic vehicles—BMW, Porsche, VW, and more

Specifications:

- .Material:45#carbon steel, black finish
- .Packaging Size: 36*34*11.5cm, Weight: 14.5kg

Extra Large Ball Joint Press Set

B03AR095

Features:

- .Large ball joint press for max clearance and easier use of tall and stacked adapters
- .This ball joint tool kit is ideal for removing press-fit ball joints from pick-up trucks; Ball joint separator tool makes it easy to press out larger ball joints

Specifications:

- .Includes both long and short drive screws to maintain a shorter overall working length when desired
- .Features 3X the throat space and includes a notched foot that allows for pressing out ball joints without removal of top mount grease fittings
- .This ball joint puller tool services pick-up trucks, such as the Toyota Tacoma and Tundra, Chevrolet 2500-3500 and Tahoe, Dodge Ram 2500-3500, and Ford F350-F551

Auto Tools

FLAVIC

13MM Strut Removal Socket - Magnetic (Tesla)

B03AV004

Features:

- .For removal and installation of the front strut mounting nut.
- .Front strut assembly can be removed without removing the upper control arm.
- .3/8" Sq drive thin-walled design, ideal for use in the limited space of the Tesla 3 strut mount.
- .Magnetic insert, to retain strut nut.

Specifications:

- .Material: 42Cr-MO
- .Heat treatment, Blackening
- .Length: 63MM
- .Hexagonal dimension: 13MM
- .3/8" drive
- .Magnetic steel in the inner hole

Adaptor Plate For Pressured Air Stand Spring Compressor

B03AV913

Features:

- .Universal adaptor plate for pressurised air stand spring compressor
- .Ideal for attaching spring feet.
- .Optimal for a secure stand when assembling and disassembling.

Specifications:

- .With 4 securing bolts and 4 threaded bolts.
- .Delivered with 2 snap rings for assembly.

3/8 " Dr.Taillight Nut Removal Wrench for Tesla

B05Z515

Features:

- .Designed for use in Tesla Model 3 vehicles and is intended for the removal of the top fixing of the rear tail lights.
- .Serves a dual purpose, functioning as both the boot lid buffer point and the securing point for the rear tail light.
- .Due to the delicate nature of the material from which it is made, it can be easily damaged when handled with improper tools, such as pliers.
- .Designed 10-sided plastic socket has been created specifically for the safe removal of this particular screw, ensuring the secure removal of the tail lights.

Specifications:

- .Material: PA6
- .Colour: Black

15 Piece No-Spill Coolant Funnel Kit

B07J979

HOT

Features:

- .Our Coolant Refill Funnel allows you to easily refill automotive cooling systems without having to worry about spills and mess. The 2-quart clear funnel lets you keep an eye on fluid levels while you work, and its stopper helps control flow and prevent air gaps to avoid squeaky belts and air pockets. The stopper also helps prevent excessive pressure build-up during filling, while the airtight and sealed extension and elbows allow you to work in hard-to-reach places.

Specifications:

- .Coolant filler kit funnels automotive fluids, such as radiator coolant and oil, cleanly into any vehicle; the long burp funnel prevents spills and trapped air during refills after a coolant flush.
- .Included: 4 cap adapters, 5 filler neck adapters, 3 extensions, a stopper, and a high quality transparent coolant funnel form a funnel kit more complete than others

R1234YF Aluminum Manifold Gauge Set B13G013

Features:

- .For R1234YF specially
- .Biger size of gauge faces for easier viewing measurement
- .Sight Glass for easier to see refrigerant going into system
- .Easy to read temperature scales on 3 1/2" gauge face (Bar/PSI/"F/"C)
- .Anti-Flutter Gauges
- .Easy to read temperature scales on 3 1/2" gauge face (Bar/PSI/"F/"C)
- .Excellent performance and using experience with durability

Specifications:

- .Solid extruded aluminum body with aluminum hand grip
- .Brass valve core and connector
- .Yellow hose thread:one end M12x1.5-M, opposite end 1/2"ACME-LH-F
- .Red & blue hose thread: M12x1.5-M both ends
- .Gauge diameter: 70mm without sheath
- .Hose working pressure: 800psi
- .Hose bursting pressure: 4000psi
- .Manifold gauge thread size: M12x1.5-F
- .Length of hose: 1.8m
- .3" Gauge faces
- .With 2pcs brass quick couplers
- .With 3pcs service rubber hose

5pc Cooling System Pres Suretest Kit

B13AG017

Features:

Traditional type (B13AH029) It's a bunch of joints with different models of tanks ,

However Our new product has a total of 4 joints made into cones, which can solve the water tank of all models through the principle of expansion, but only for small cars!

Specifications:

- .Capless tester uses cone adaptor system to seal and pressurise the cooling system
- .Adaptors may be used to replace both screw and bayonet type cap fittings
- .Kit includes pump with gauge and four system adaptors for use on a wide range of vehicle applications

Diesel High Pressure Pump Test Kit

B15AS335

Features:

- .Essential tool for diagnosing the fuel circuit of diesel common rail systems.
- .This tester can check the real pressure in the high pressure circuit in common rail system using a high pressure gauge(2000 bar) and high pressure flexible hoses.

.For a variety of tests: -Engine cranking/running pressure test -Maximum pump pressure test -Pump pressure regulator test -Injector leakage test

Specifications:

- .With high pressure gauge.
- .With flexible hoses.
- .With dummy pump regulator and injector pipe blanks.
- .Come With Blow Molded Case.
- .Includes instructional manual.
- .Item Weight: 4.9 KGS

Anti-freeze Tester

B13AJ031

- .Easy to read scale & pointer
- .Tests hot or cold batteries on 6 & 12 Volt systems Freezing to boiling points for anti-freeze, calibrated in °C and °F

Smoke Diagnostic Leak Detector Machine

B15Z080

- .Weight:3.5KG
- .Rated power: 55 W,Rated voltage: DC12V
- .The amount of smoke from the battery:15L/Min
- .The kit consists of the main engine, smoke outlet, power cord, universal adapter, special fume oil,air nozzle remover three-size tapered cap, crankcase adapter connector, cap tapered adapter, black rubber transfer connector, plating Hook, Red Plug

VDE Insulated Open End Wrench 8mm B19I268

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 8mm.

VDE Insulated Open End Wrench 9mm B19I269

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 9mm.

VDE Insulated Open End Wrench 10mm B19I270

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 10mm.

VDE Insulated Open End Wrench 11mm B19I271

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 11mm.

VDE Insulated Open End Wrench 12mm B19I272

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 12mm.

VDE Insulated Open End Wrench 13mm B19I273

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 13mm.

VDE Insulated Open End Wrench 14mm B19I274

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 14mm.

VDE Insulated Open End Wrench 15mm B19I275

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 15mm.

VDE Insulated Open End Wrench 16mm B19I276

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 16mm.

VDE Insulated Open End Wrench 17mm B19I277

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 17mm.

VDE Insulated Open End Wrench 18mm B19I278

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 18mm.

VDE Insulated Open End Wrench 19mm B19I279

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 19mm.

VDE Insulated Open End Wrench 21mm B19I281

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 21mm.

VDE Insulated Open End Wrench 22mm B19I282

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 22mm.

VDE Insulated Open End Wrench 24mm B19I284

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 24mm.

VDE Insulated Open End Wrench 27mm B19I287

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 27mm.

VDE Insulated Open End Wrench 30mm B19I290

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 30mm.

VDE Insulated Open End Wrench 32mm B19I292

- Technical Details:**
- Material:cr-v;
 - Protects from electric shocks up to 1500 V DC and 1000V AC;
 - Size: 32mm.

20Pcs Insulated 1/4" Dr. Socket Set B19F020

- Technical Details:**
- Each tool is tested to a voltage of 10,000V AC and certified 1,000V AC;
 - Each Insulated tool has passed 2 times 10,000VAC test to ensure safety, obtained GS/VDE certificate;
 - 12Pcs sockets:4 5 5.5 6 7 8 9 10 11 12 13 14mm;
 - 5Pcs 1/4" Dr.Bit sockets:H3-4-5-6-8mm;
 - 1Pc Ratchet wrench;
 - 2Pc Extension bar:4",6";

6" VDE Wire Strippers B19H216

- Technical Details:**
- Made with drop-forged, heat-treated chrome vanadium steel (CR-V) for durability;
 - Bi-color comfort grip with insulated non-slip coating;
 - VDE approved for quality and safety;
 - Size:6".

6" VDE Insulated Round Nose Pliers B19H256

- Technical Details:**
- Made with drop-forged, heat-treated chrome vanadium steel (CR-V) for durability;
 - Bi-color comfort grip with insulated non-slip coating;
 - VDE approved for quality and safety;
 - Size:6".

6" VDE Long nose plier H01C183

- Technical Details:**
- Pliers VDE-tested in conformance with DIN EN/IEC 60900 1000V
 - Material: 60CR-V ;
 - Finish Fully hand polished with auti rust Oil;
 - Handle, TPR and PP;
 - Size:6"

8" VDE Long nose plier B19H405

- Technical Details:**
- Pliers VDE-tested in conformance with DIN EN/IEC 60900 1000V
 - Material: 60CR-V ;
 - Finish Fully hand polished with auti rust Oil;
 - Handle, TPR and PP;
 - Size:8"

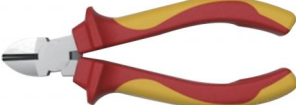

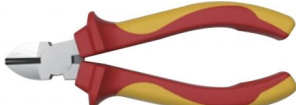

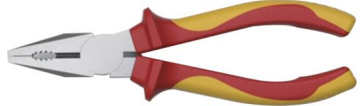

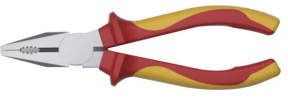

6" VDE Bent Nose Pliers B19H055

- Technical Details:**
- Made with drop-forged, heat-treated chrome vanadium steel (CR-V) for durability;
 - Bi-color comfort grip with insulated non-slip coating;
 - VDE approved for quality and safety;

Floor jack pad kits for Tesla Model 3/Y/S/X

D01Y020

Features:

.Application:Our jack pad compatible with 2016-2021 2022 2023 Tesla Model Y/3/S/X, matching with a storage bag can keep the jack pads in order. 5 PCS tire repair kit perfect fit for any car tires. Attention that it not fit for Tesal model 3 2024.

.Function: When using a jack, too much gravity or too small a fulcrum will cause certain damage to the car. The rubber pad can protect the original car chassis from being worn and painted. The tire repair tools will easy repair your tires wound, saving time and convenient.

.High-Quality Material: The jack pads is made of rubber and very durable. The soft rubber pad has a cushioning effect, it will transfer the possibility of deformation to the rubber pad without causing damage to the body. And tire repair kit made of high quality steel or other great materials, long-term use, no mold or damage your tires.

.Tire Repair Tools:Our package equipped with thread drill, fork drill, tire strips, superglue, knife and plier, was a practical tire repair tool kit, providing timely assistance for tire blowout problems and solving your urgent needs. Easy and convenient, just follw the detailed instructions for tire repair.

.Includes: 4x Lifting Jack Pad, 1x Thread Drill, 1x Fork Drill, 5x Tire Strips, 1x Superglue, 1x Plier, 1x Knife, 1x Storage Box.

1300W Hot Air Gun Dual Temperature Settings

E05A043

Features:

【Powerful Power in 2 Modes】 With 1800W heat gun heats up quickly in seconds and can generate enough hot air for almost any project. With two airflow modes, you can switch the temperature between a low-temperature setting of 572°F (300°C) and a high-temperature setting of 1112°F (600°C) with one click, dual temperature options to meet different needs in your project.

【Fire-resistant material & Overload Protection】 our hot air gun uses qualified material which can quickly cool down at high temperatures. this heat gun also possesses an overload protector to effectively avoid damage to machines or electronic circuits.

【Hands-Free & Convenient to Use】 The lightweight metal bracket design allows the heat gun to run stably on the workbench, freeing hands to complete the work more efficiently. The handle and the palm are effectively fitted, the gear position is appropriate, and it can be stably adjusted with one hand, and it is very convenient to use.

【Four Nozzles Accessories & Wide Applications】 Heater Gun comes with 4 multi-purpose nozzles. Attachments meet different application needs. Great for crafts, shrink wrapping, epoxy resin, shrink tubing, cell phone repairs, vinyl wrap, heating PVC, thawing pipes, paint removal, electronics repair, loosening rusted bolts, and other heating or thawing purpose.

1/2 Flex Head Micrometer Torque Wrench 60-330NM

H05AB221

Features:

- Precision Scale Technology: Clear and easy-to-read scale utilizing laser technology for accurate torque adjustments.
- Adjustable Torque: Easily adjust torque settings between 20-200 Nm, providing versatility for different applications.
- Durability: Constructed from high-quality Chrome Vanadium Steel for robustness and longevity.
- Enhanced Accessibility: The 72-tooth reversible ratchet head, with a flex of up to 15°, improves access in narrow workspaces.
- Professional-Grade Performance: Designed as a high-quality torque wrench suitable for professional use, ensuring reliability and optimal performance.

Specifications:

- Accuracy: +/- 3%
- Torque Range: 60-330 Nm OR 25-250 ft·lb
- Material: Chrome Vanadium Steel
- Ratchet Head: 72-tooth reversible
- Flexibility: Ratcheting head flexes up to 15°

10" Wrench Pliers and Wrench in One Tool, Light-Duty

H01J097

Features:

- Replaces traditional wrench sets, accommodating both metric and imperial measurements for enhanced versatility.
- Smooth jaws allow gentle installation of surface-refined fittings, enabling direct work on chrome without causing damage.
- Ideal for a range of tasks, including gripping, holding, pressing, and bending workpieces, offering a comprehensive solution.
- Backlash-free all-over enclosure ensures the protection of sensitive fittings, maintaining secure and damage-free handling.
- Quick adjustment button facilitates rapid adjustments while working with a workpiece, enhancing overall efficiency and ease of use.

Specifications:

- Material: High-quality CR-V (Chromium-Vanadium) for durability.
- Versatility: Combines pliers and wrench functionalities for a multifunctional solution.
- Key Width Range: Covers 0 to 46 mm (1 3/4 inches) for continuous locking with a quick-setting mechanism.
- Quick Setting: Steel spring-loaded push button enables rapid and secure adjustments, ensuring efficient workpiece locking.
- Convenient Operation: User-friendly design for easy and convenient workpiece locking.
- Multipurpose Utility: Ideal for gripping, holding, pressing, and bending workpieces, providing versatility in various applications.
